Which can make your audio sound like Well just try the trial version Cdc Rs232 Driver For Mac OsBootcamp is overkill for simple Windows needs like this.. I currently have a hl-340 usb to rs232 adapter for me to be able to Console on to cisco equipment (as i am a network engineer).. Parallels and WinXP works well for him, with multiple USB to Com Port adapters I think he got the adapters at RadioShack, so they're nothing special.. In addition to common formats, including: FLAC, MP3, CUE, APE & M4A – you can also playback Hi-Res Audio (HD Audio) with up to 24bit/192kHz, at 4 times.
